Product Description

BLUESOFT is a unique water softener and detoxifier for fish and shrimp ponds.

Guaranteed Analysis:

EDTA Assay ≥ 99% Min.

Ingredient

- EDTA (Ethylene diamine tetra acetic acid)

Purpose of use

- BLUESOFT effectively removes the hardness and toxic substances from water and makes it very soft.
- Creates a healthy, toxic free environment for the molting and the growth of shrimp and fish.
- Helps in maintaining the stable bloom.
- It is very effective in all types of water systems like fresh water, saline water, canal water, bore-well water.
- It controls high BOD and high COD in the pond.
- It very effectively controls the pollution caused by hydrogen sulfide, sulfur dioxide, methane and un ionized ammonia, iron etc.

Dosage

1 Kg per hectare or as per the advice of aqua consultant.

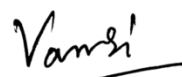

Specifications

Trade Name	BLUESOFT
